lungExpression

March 23, 2012

---

harvard   *A Harvard study on lung cancer gene expression*

Description

A Harvard study on lung cancer gene expression. Data is represented as an ExpressionSet.

Usage

```
data(harvard)
```

Details

Annotation for the phenoData will be updated.

Examples

```
data(harvard)
```

---

michigan   *A Michigan study on lung cancer gene expression*

Description

A Michigan study on lung cancer gene expression. Data is represented as an ExpressionSet.

Usage

```
data(michigan)
```

Details

Annotation for the phenoData will be updated.

Examples

```
data(michigan)
```

---

stanford   *Public lung cancer data from the Stanford study*

Description

Public lung cancer data from the Stanford study represented as an ExpressionSet

Usage

```
data(stanford)
```

Details

Annotation for the phenoData will be updated.
