harvard

A Harvard study on lung cancer gene expression

Description

A Harvard study on lung cancer gene expression. Data is represented as an ExpressionSet.

Usage

```
data(harvard)
```

Details

Annotation for the phenoData will be updated.

michigan

A Michigan study on lung cancer gene expression

Description

A Michigan study on lung cancer gene expression. Data is represented as an ExpressionSet.

Usage

```
data(michigan)
```

Details

Annotation for the phenoData will be updated.

`stanford`*Public lung cancer data from the Stanford study*

Description

Public lung cancer data from the Stanford study represented as an ExpressionSet

Usage

```
data(stanford)
```

Details

Annotation for the phenoData will be updated.
