

# Package ‘affycompData’

October 16, 2018

**Version** 1.18.0

**Title** affycomp data

**Author** Rafael A. Irizarry <rafa@jhu.edu> and Zhijin Wu  
<zwu@stat.brown.edu> with contributions from Simon Cawley  
<simon\_cawley@affymetrix.com>

**Maintainer** Harris Jaffee <hj@jhu.edu>

**Depends** R (>= 2.13.0), methods, Biobase (>= 2.3.3), affycomp

**Description** Data needed by the affycomp package.

**License** GPL (>= 2)

**biocViews** MicroarrayData

**git\_url** <https://git.bioconductor.org/packages/affycompData>

**git\_branch** RELEASE\_3\_7

**git\_last\_commit** 9b1009d

**git\_last\_commit\_date** 2018-04-30

**Date/Publication** 2018-10-16

## R topics documented:

|                             |   |
|-----------------------------|---|
| lw.sd.assessment . . . . .  | 1 |
| mas5.assessment . . . . .   | 2 |
| rma.assessment . . . . .    | 2 |
| rma.sd.assessment . . . . . | 3 |

|              |          |
|--------------|----------|
| <b>Index</b> | <b>4</b> |
|--------------|----------|

---

|                  |   |
|------------------|---|
| lw.sd.assessment | <i>An example of the result of an SD assessment</i> |
|------------------|---|

---

## Description

The Dilution files were processed with the dChip package (using PM-only), and then the function [assessSD](#) from the affycomp package was applied.

**Usage**

```
data(lw.sd.assessment)
```

**Format**

A list.

---

|                 |  |
|-----------------|--|
| mas5.assessment | <i>Examples of the result of assessments</i> |
|-----------------|--|

---

**Description**

The Dilution and both (HGU95 and HGU133) types of Spike-in data were processed with Affymetrix MAS 5.0 software, yielding three "MAS 5.0" [ExpressionSet](#)'s. (These are available, in csv-format, at <http://affycomp.jhsph.edu/AFFY2/rafa@jhu.edu/030424.1033/>.) Then various assessment functions from the affycomp package (most recently, version 1.28.0) were applied. mas5.assessment resulted from [assessAll](#) on Dilution and HGU95; mas5.assessment.133 from [assessSpikeIn](#) on HGU133; mas5.assessment2 from [assessSpikeIn2](#) on HGU95; and mas5.assessment2.133 from [assessSpikeIn2](#) on HGU133.

**Usage**

```
data(mas5.assessment)
data(mas5.assessment.133)
data(mas5.assessment2)
data(mas5.assessment2.133)
```

**Format**

A list of list.

---

|                |  |
|----------------|--|
| rma.assessment | <i>Examples of the result of assessments</i> |
|----------------|--|

---

**Description**

The Dilution and both (HGU95 and HGU133) types of Spike-in data were processed with the (version 1.0) function [rma](#), yielding three "RMA" [ExpressionSet](#)'s. (These are available, in csv-format, at <http://affycomp.jhsph.edu/AFFY2/rafa@jhu.edu/030429.1332/>.) Then various assessment functions from the affycomp package (most recently, version 1.28.0) were applied. rma.assessment resulted from [assessAll](#) on Dilution and HGU95; rma.assessment.133 from [assessSpikeIn](#) on HGU133; rma.assessment2 from [assessSpikeIn2](#) on HGU95; and rma.assessment2.133 from [assessSpikeIn2](#) on HGU133.

**Usage**

```
data(rma.assessment)
data(rma.assessment.133)
data(rma.assessment2)
data(rma.assessment2.133)
```

**Format**

A list of list.

---

`rma.sd.assessment`      *An example of the result of an SD assessment*

---

**Description**

The Dilution files were processed with the `affy` version 1.0 package `rma` add-on function, and then the function `assessSD` from the `affycomp` package was applied.

**Usage**

```
data(rma.sd.assessment)
```

**Format**

A list.
